**U.S. Embassy Algiers Announces New Visa Appointment Procedure**

The Embassy of the United States of America in Algeria announces its transition to a new appointment and document delivery service for the visa unit. This system is being implemented at U.S. Embassies worldwide, and is designed to be more convenient and user-friendly, with all services included in one single visa fee. In addition to a new online system, Call Center representatives will be available for applicants to obtain information by phone.

**Starting August 16, 2013, non-immigrant visa applicants must follow this procedure:**

1. Visit <http://www.ustraveldocs.com/dz> to begin the process. You can also access this site through the U.S. Embassy website: <http://algiers.usembassy.gov/>
2. Create a profile in the online system, then fully complete and submit the DS-160 application form.
3. Schedule a visa interview at the U.S. Embassy.
4. Attend your interview at the time you selected, making sure to bring the DS-160 and all supporting documents that apply to your case, as well as the appropriate fee for your visa type.
5. If your visa is approved following your interview, your passport will be delivered to the location that you designated upon scheduling your interview at no additional cost to you.

Applicants are advised to select their interview date and time carefully. Multiple no-shows could lead to significant delays in rescheduling.

Applicants with existing interview appointments will still be processed under the old system and should attend their interviews as scheduled.
